PRICES

quoted herein supercede all previous lists. Destroy all former lists.

RATES.

Unless otherwise stated, sell 6 for one-half the Dozen Rate. 50 for one-half the Hundred Rate. 500 for one-half the Thousand Rate. All items quoted only at the "each" rate, sell at the straight single rate.

If larger quantities are wanted than those quoted in list, write for rate, stating varieties and number of each wanted.

This list contains those varieties mostly in demand, and the more promising of the newer sorts. We have a good many not listed. If other varieties are wanted write us and we shall advise if we can furnish.

SIZES.

Salesmen are requested to sell only the sizes and varieties specified in this list. Be sure to mark size of trees plainly on all orders, thus lessening the chance of error in filling same.

Cross pollination is necessary for plums. The relative blossoming period is indicated by the number following the name. Varieties in the first three and in the last three groups overlap, so they will cross-fertilize. But those in group one are through blossoming before those in group four begin.

Season of ripening: EE for extra early; E, early; M, medium; L, late.
